

Bluff Adjoining National Golf Course

Platte County, MO \$889,000

An extremely rare opportunity – a chance to own the bluff overlooking the National Golf Club of Kansas City, designed by champion golfer, Tom Watson. The subject property has been owned by the same family for almost a century. Surrounded by development, this timbered 38 acre m/l tract remains private and pristine. The possibilities are endless, whether you envision building your own secluded estate overlooking the National or developing a complex of luxury homes lining the bluff, this property can accommodate all options.
